

Regina Motocross Club

Regina, Saskatchewan

The Regina Motocross Club is one of the largest and most active, non-profit riding groups in the province. Established since 1975, we are flourishing with over 150 members, not including the additional family members and the hundreds of spectators and riders that travel to our track yearly.

The Regina Motocross Club is part of the Saskatchewan Motocross Association (SMA) and is the only facility in Regina and surrounding area for this type of recreation. Our facility will be home to two provincial races this season – July 22nd and Sept 10th, 2023.

Our track offers a large variety of tracks for all ages, skill levels, and subdivision of the sport. We work consistently to improve our facility for our riders and families, to ensure it has a mix of safety, challenge and fun.

Our goal as a club is to provide the best off-roading riding and family-oriented facility in the area that will bring riders from across Saskatchewan as well as neighbouring provinces to our track. We strongly maintain an active presence within our community and act as a positive role model for others within the sport.

Currently, we are working hard to raise funding in order to continue to maintain our facility, make new improvements to our facility (such a sprinkler system and upgrades to our kids track), provide learn-to-ride and training programs, run two race weekends this season, and promote the sport in new innovate ways this season to have more youth and families get involved in the fun. We are looking for sponsors to help us sustain a great riding experience for our riders and families and grow our community of riders.

If you are willing to help us by sponsorship, please see the following page for details. Your generosity means the world to us. The support from our sponsors has helped us run this club for almost fifty years!

Any questions about the sponsorship or if you're interested in being a sponsor, please contact us at the following email and a board member will follow up with you.
